

CAPTURED A DUKE

An Opera Singer Marries Prince Henry of Hesse.

QUEEN USELESSLY INTERFERES

The Duke is a Beautiful Woman 25 Years Old. Whose Fortune Was Attainable. The Duke is Over Fifty.

(Special to The Herald—Examiner Dispatch.)

Princess Henry of Hesse, Darmstadt, was married in that city to Frauclen Milnes, a member of the Grand Ducal Opera company. The ceremony was performed before only a few witnesses. The announcement has been a genuine and disagreeable surprise to the court circles, both here and in Darmstadt.

Princess Milnes

is a beautiful young woman, who is celebrated for her acting of passion and tears. She is dark, of fine figure and has a most remarkable head of wavy hair. She is said to be about 25 years of age. Her appearance in "Carmen" first attracted the prince, who despite his 52 years, is a familiar figure in the green room of the opera house. He paid her court, to the scandal of the dual family, but she accepted with apparent reluctance his public attentions. Then he ceased showing himself slightly in his box and

confined his visits to the green room. The princess Milnes received enormous quantities of flowers anonymously, but it is generally understood that they came from the prince. The prince was frequently at Frauclen Milnes' apartments, yet owing to his reputation for gallantry, especially among actresses, it was not believed for some time to be anything more than one of his numerous flatteries.

It is said that the prince and princess had been sufficiently disengaged already by the Grand Duke Ludwig's marriage, as well as by that of the prince himself with Frauclen Wittich in 1878. Prince Henry was supposed to have promised to give up his proposed marriage, and for a short time after the queen's visit his courtship was suspended. He was not seen at the princess' apartments and he ceased visiting her behind the scenes. Three weeks ago, however, he returned to her and arranged for a marriage, which took place yesterday. Prince Henry is a Prussian general of cavalry.

STRIKE TROUBLES

Three Hundred Union Men Attack "Scabs."

THE POLICE RUN FOR THEIR LIVES

Two Officers Wounded—Strikers Violent. Places and Drive the Men Off—A Number of Arrests Made.

TOWANDA, N. Y., June 11.—About 10 o'clock this morning 300 union men marched down the river to Watson & Son's lumber yard and began to throw clubs and stones.

The entire police force of eight men had been stationed along the docks and yards. They speedily arrived at the scene and drew guns and fired into the air, with the hope of quelling the riot.

The union men also had shooting irons and returned the fire with serious results. Officer John Martin was shot through the knee joint, and Officer Frank Kinley through the abdomen.

THE POLICE FLED FOR THEIR LIVES.

Sheriff Eslinger of Lockport was called upon for assistance and came upon the train, accompanied by deputies.

As a result of the conference of the chief of police, sheriff, Captain Sommers, of the militia, and lumbermen, it was decided to attempt to arrest until every precaution had been made for a successful effort.

It is thought the bullet which struck Kinley was intended for Woods, foreman of the yard. He had a revolver and was shooting when a

STONE STRUCK HIM IN THE HEAD, felling him to the ground. Woods was badly cut and bruised.

After the policemen were driven away short work was made in hustling out the men engaged in work. The union men then visited the island where the men were at work on the barges at the different yards and several men were badly beaten.

Warrants were issued for the arrest of several men, believed to be the ring leaders of the mob, and nine men were taken to jail in chains to the Lockport jail.

The union men are holding a meeting tonight and have appealed to the state board of arbitration.

THOUGHTS TO BE HELD IN READINESS.

MARQUETTE, Mich., June 11.—All companies of the Fifth regiment, Michigan state troops, have been ordered to hold themselves in readiness for a call for assistance from the sheriff of Houghton county for service against striking lumbermen at the Osceola mines.

There is a certain to be trouble as soon as the company attempt to start up the mine again, with a strong probability that trouble may come to the aid of Osceola strikers. It is the intention of the authorities to mass the entire Fifth regiment on the scene so as to have on the start promptly and force on hand to put down any movement to start up the mine.

No movement is likely to be made before Monday or Tuesday, when the Osceola company will decide whether to turn the present strike in the Osceola mine to work the mine under military protection.

When the Eurymachus reached Mr. Redmond soon appeared and was greeted with cheers. The delegation was urgent. Waterford, Ireland, wanted to present Redmond with an address, and Mr. Redmond was the victor, and Mrs. Margaret Moore read it while Redmond and those on board listened attentively, leaning over the side of the ship. Redmond was beamed with evident pleasure as he responded briefly. Mr. Redmond will be received by the reception committee tomorrow. He will make addresses during his stay here and will return in a few weeks.

Members of the Whisky Trust Come Out Ahead.

CLEVELAND, June 11.—Judge A. Ricks, in the United States district court today denied warrants for the removal of Warren H. Corning and Julius E. French of this city to the United States district court of Massachusetts to answer to indictments found against them as members of the whisky trust. The judge found the indictments were insufficient in charging crime as to either purchase and use of distilleries or sale of their products. The indictments failed to show that the defendants were in the business of distilling in the proceedings, the court held that the so-called whisky trust could not be controlled by the actions of any one but its own members.

ALMOST A RIOT.

The Good Citizens of Payton Get Into a Row With Circus Tongs.

PAYTON, June 11.—[Special telegram to The Herald.]—The circus here today commenced the usual game of swindling ticket buyers, and in the protection of the people a general row followed.

Monroe Manville was knocked senseless with a revolver, making a dangerous wound on the top of his head. Mr. Peery next interfered and received a blow on his cheek with a club and also broke his thumb. Others took part and for a short time there was an uproar.

From all appearances the circus people

were determined to whip the town. Many were arrested out of 50 and 100 taken.

The police took the matter in hand and the ticket man fired his gun as a signal for help and the manager and force came outside of the tent to assist in quelling the disturbance. Many people were frightened away that would have patronized the show.

The Whereabouts of Mining Certificates.

Chiliens Don't Want Harrison.

VALPARAISO, June 11.—The Chilean papers, in commenting upon President Harrison's re-nomination, say they hope he will not be re-elected. The editors, however, state that they derive much consolation from Blaine's defeat. Their only desire is whoever is elected president in November next that he will appoint a new minister to represent the United States in Chile in place of Mr. Egan. They said here in that capacity.

REV. WILLIAM S. RAINSFORD.

The Clergyman Who Expects to Run Respectable Saloons.

NEW YORK, June 11.—The Rev. William S. Rainsford, who is about to establish some respectable drinking saloons in New York, is quite a unique figure in the Episcopal church. For years he has been

the leader in peculiar and practical reforms among the poor.

He was born in Ireland in 1850, and although delicate in early life, soon became strong and vigorous by travel and study. After graduating from Cambridge, England, in 1873, he became curate at St. Giles', Norwich, from there he came to this country, where he engaged for two years in mission work in the United States and Canada, and then went to work for some time in St. James' cathedral, Toronto, from whence he was called to the rectorship of St. George's church, New York, in January, 1878, where he has since remained.

At this place, with numerous efficient assistance, he has completely metamorphosed the church and neighborhood, converting the fashionable and exclusive club into a working church with free seats. He has enlisted the most cultured and wealthy people into his ranks, and has established numerous societies, clubs, missions, schools and other organizations, all of which are peculiarly free from the religious restraint so generally laid upon the churches of this country.

His last departure in his scheme for running saloons, where unadulterated drinks might be sold, and where the poor man might find relaxation and comfort like his wealthier brother at the club.

A BOLD ROBBERY.

Two Men Board a Train and Secure \$17,000.

A Crazy Individual Takes Possession of a Train and Hints It for a While—He Jumped Off and Is Arrested.

SAN FRANCISCO, June 11.—John Gibson, secretary of the Judson Manufacturing company, left the city this afternoon with \$17,000 in gold to pay off the employees of the factory between Oakland and Berkeley. Near Berkeley two men boarded the train, covered Gibson with a revolver and compelled him to give up the money. The men jumped from the slow moving train and took a buggy near by and made their escape.

Gibson fired five shots from the platform of the train without effect. The passengers were dumfounded at the scenes as a noted before them. Officers are after the robbers.

A PERILOUS PREDICAMENT.

A Crazy Man Takes Possession of a Train, Shooting at the Train Men.

HOLLY, Mich., June 11.—A man named Johnson took possession of the baggage car on the train for Detroit this morning, driving out the baggage man and assistant at the point of a revolver. When the train reached this place he ordered the conductor to start the train, and fired several shots at him. Finally he jumped on the engine and forced the engineer to go ahead. Ten minutes later he shot at the engineer, and the train was stopped. The man, who evidently is crazy, was captured by the sheriff, and lodged in jail.

SEKENEADED REID.

A Large Party Call Upon Him Unexpectedly at His Home.

NEW YORK, June 11.—The esteem in which Whiteley Reid, the Republican candidate for vice-president, is held by his neighbors in White Plains, found expression this evening in a friendly demonstration by the citizens of the town, who, irrespective of party affiliations, went out to the Ophir farm and surrounded Reid.

Reid was enjoying a chat with the members of his family, and a party of several hundred, headed by a band, entered the grounds.

Reid, coming from the main hall, greeted his friends heartily, and addressing them informally. Afterwards he thanked them for the compliment which they paid him. The surrounding party were invited to enter the house, where an informal reception was held, with general hand shaking and exchanges of friendly words.

Light refreshments were served and the party remained about an hour. Mr. Samuel Hooper, president of the village, made a speech in a pleasant vein, congratulating Reid on behalf of his neighbors, and the party withdrew.

McKinty Arrives at Chicago.

CHICAGO, June 11.—Governor McKinty arrived late tonight. To a reporter who asked as to the bearing of the tariff and silver issues in the coming campaign, he said: "Protection of honest money and protection to the ballot will be safe in our hands. We have no candidates, while the strong, wise and patient administration will be to the ticket a tower of strength. The silver issue will not in my judgment, create a difference between the east and west, and the Republican position this year is precisely what it always has been."

LIKE AN ICEBERG

That Is the Way Boise Felt Over Harrison's Nomination.

FEDERAL OFFICIALS TREMBLING

The Situation of the Court d'Alene Stricken—The Governor Issues a Proclamation, Which Is Not Well Received.

BOISE, Ida., June 11.—[Special telegram to The Herald.]—The announcement last evening of the nomination of Harrison struck the Republicans of Boise City like an iceberg on a July afternoon, causing a stampede in the Republican ranks, especially among the federal officials, who were overconfident of Blaine's nomination and have been open against Harrison and used all their influence at county and state conventions to defeat his re-nomination. They fear now that should "grandpa's hat" be re-elected, they will be cut off from the government tank and will

BE OBLIGED TO SEEK HONEST LABOR.

The nomination is received with no apparent enthusiasm, no firing of guns, or even a firecracker. Harrison's administration has been very unpopular in Idaho and all presages are an easy victory for the state Democracy in the idea of November next. Notwithstanding the fact that Idaho Republicans instructed for Blaine, not a soldier in his ranks is left in Boise to discharge a farewell shot.

THE MINERS' STRIKE.

United States Marshal Pinkham returned this morning from Coeur d'Alene, where he has been to serve 300 injunctions on union miners. He says everything is quiet there; that the mine owners have about 1000 men at work, but it is necessary to protect them with a strong guard. There are 1500 men out of work and many in destitute circumstances, although they are receiving substantial support from other unions.

Great indignation is felt throughout the state over Governor Wiley's

SO-CALLED PEACE PROCLAMATION.

to the miners' union in Coeur d'Alene on the 4th inst. Fresh fuel was added to the fire yesterday by another proclamation being issued, as follows:

State of Idaho, executive department, Boise City, Ida., June 10, 1892—W. H. Frazier, M. T. Wright, A. W. Steele and 184 other citizens and residents of Shoshone county—Gentlemen, I have the honor to acknowledge the receipt of your communication of the 4th inst., which among other matters deprecates the issuance of my proclamation of June 4. This document admonishes the citizens of Shoshone county to refrain from unlawful assemblages, not to interfere unlawfully with persons and property, to obey the law and preserve the peace. These things all well disposed citizens are supposed to conform to without a suggestion or mandate. It requires nothing above or outside of the law. It scarcely admits of discussion, and if the requirements are obeyed, then I may safely hope that peace and good order will generally prevail in Shoshone in the future as it has generally prevailed in the past. If its requirements are not obeyed and the civil law continues inadequate, a declaration of martial law and a file of soldiers will speedily follow it. Very respectfully, (Signed) NORMAN H. WILEY, Governor.

Prominent citizens, regardless of party, consider this another exhibition of the SUPREME IGNORANCE AND CONSUMMATE GALL so often shown during the present administration. It is universally conceded that no imminent danger of trouble between the Miner's union and Mine owners association exists at present.

For Disruption of Office.

NAMPA, Idaho, June 11.—[Special telegram to The Herald.]—The board of trustees of this place, which is composed of John E. Stewart, Hon. James McGee, R. W. Purdum, Frank L. Higgins, E. H. Kohler, were placed under arrest last night by Sheriff Oldham. The warrants were sworn out by John Young, who charges the board, with the exception of Mr. Purdum, with the crime of usurping an office to which they had not been legally elected. The board asked for a continuance and on Monday the case will be called up before Judge Ryals. Some interesting developments are expected.

The Miners Win.

WALLACE, Ida., June 11.—The deadlock in the labor situation is broken today. The miners and mine owners signed an agreement by which the men are to return to work at union wages.

PREFERRED BLAINE.

The Minnesota Convention Has Been Specially Followed in Berlin.

BERLIN, June 11.—[Copyright, 1892, by New York Associated Press.]—The Minnesota convention has been followed with the greatest interest in political circles here, where it was generally expected and hoped that Blaine would be successful, not because he was liked, but because his success would be regarded as a partial relief to the McKinley situation. The German manufacturers are still smarting under all here are in sympathy with the Democrats. While the personal character of President Harrison is not a subject of discussion, the personal character of Reid is universally conceded, little attempt was made to conceal the hope that they will be beaten at the polls.

The correspondence between the czar and Emperor William has been the leading topic during the week.

ON BOARD A TRAIN.

Organization of a Harrison Club by Prominent Republicans.

CHICAGO, June 11.—The first national Harrison and Reid Republican club was organized this evening on the train coming east between Milwaukee and Chicago. Honorable A. A. Taylor of Tennessee, president, Honorable Harry J. Schoemaker of Pennsylvania, secretary and treasurer. The club represents sixteen different

Colonel Polk's Funeral.

WASHINGTON, June 11.—The 11 o'clock train over the B. & O. railway tonight carried the remains of Colonel Polk to Raleigh, N. C., for interment. Funeral services will be held at Raleigh at 4 p. m. tomorrow.

One of the most precious and beautiful amulets of history is that of which Monroe D. Conover tells us. It was a treasure from the past, owned by the Emperor Louis Napoleon III. It was set with a blaze of precious stones, the gifts of many princes. It resembled the crown of an emperor, who wore it as a war charm. He wore it when he was killed among the Zulus, and it is gone, no one knows where. All it has left is the relic of a man who was wearing among those people and had worn it about his neck. No matter how precious it was, it would not have been left untraced. The death of Napoleon III. was a great deal of a crowd, even for a country where the people have for centuries been used to crowding. China has 400,000,000, and would be just as well off with half that number.

In the reign of Henry VIII the use of sable was forbidden to any one below a viscount. A pelisse of sable, the property of the late Emperor Nicholas of Russia, displayed in the exhibition of 1891, was valued at \$100,000. A coat lined with sable is often worth \$1,000 to \$2,000. A set of sable tails can hardly be sold for less than \$350.
